Subject: Update on Fruitland Magnesium Fire Site

On Saturday, cleaning operations of two additional units were conducted. One was sampled on Sunday. (The other was not). One of the residences was signed by UC and approved for re-occupancy by DPH on Saturday and on 4pm Sunday, DPH approved the final home on the North Side for re-occupancy. Today the CIC is operational (they were off yesterday) to work with residents on re-entry. There are still 5 residences that still have to be processed for re-entry. (The final step in the process). We are hopeful that they will be completed today, but CIC presence needs to remain until that process is complete.

The UC met this morning on outstanding items including: final press release, residential data, package and south side residents that are still under medical evacuation. Command trailers are being removed today and tomorrow. The CIC trailer has been removed and is operating out of JIC and EPA IC trailers now.

Things are winding down and we look forward to all of the residents being home soon.
